

**CANADIAN GALLOWAY ASSOCIATION**  
**A.I. SIRE LIST**  
**as of April 26, 2023**

Sires noted with an asterisk (\*) are proven carriers of a recessive gene for red coat colour. Belted Galloway and White Galloway sires noted with a plus (+) have completed a homozygosity test and have achieved at least 99.99% verification of homozygosity for their colour pattern. Please contact semen distributors for current pricing and for status of semen for export from Canada.

For sires for which it is indicated that a Semen Certificate is not required, offspring of that sire may be registered without a Semen Certificate, otherwise a Semen Certificate is required for registration of each offspring of that sire conceived by A.I.
